PART II. SERVICES

1. EXCHANGE SERVICE

- 1.1. Exchange Service allows You to sell Your Funds in exchange for other types of Funds supported by Trustyfi within the exchange rate established by Trustyfi and displayed when Your Exchange Transaction is initiated, subject to the applicability of Trustyfi Fees. Some types of Exchange Transactions may not always be available and may not be supported in all markets and regions. Fiat to Fiat Exchange is not supported.
- 1.2. Exchange Service may be provided via Your Account, occasionally, or in light of the Wallet service provision.
- 1.3. You may initiate an Exchange Transaction by selecting one of the payment methods available on the Platform. Some payment methods may not be available in all markets and regions. Trustyfi does not guarantee the availability of any particular payment method and may make changes to, limit, restrict or discontinue the acceptance of any particular payment method at any time. To use some payment methods, You may be required to complete additional steps, undergo additional identity verification or provide additional information either to us or the External Providers.
- 1.4. When performing Exchange Transactions, You may only use the Wallet, an external digital wallet or a payment account held in Your name or of which You clearly demonstrate ownership.
- 1.5. External Providers may be involved in the processing of Your Exchange Transactions involving Fiat. External Providers' terms and conditions apply.
- 1.6. Depending on the chosen payment method, You may need to provide other information or complete other activities that the External Provider or we may reasonably require to ensure Exchange Transaction execution.
- 1.7. Exchange Transactions are subject to Trustyfi Fees and commissions displayed at the moment of Exchange Transaction initiation. For more details, please see our Pricing and fees disclosure. All fees will be deducted from Your Exchange Transaction.
- 1.8. Exchange Transactions are completed at the exchange rate specified at the moment of Exchange Transaction initiation. Please note that the exchange rate is set and determined solely by Trustyfi and may differ from the market exchange rates. For more details, please see our Pricing and fees disclosure.
- 1.9. Once Trustyfi initiates the Transaction, as may be evidenced by the corresponding Transaction report or bank or Blockchain data, Trustyfi will not be responsible for further executing the Exchange Transaction.
- 1.10. Exchange Transactions may be subject to limits established by Trustyfi and additional KYC/KYB and AML/CFT compliance requirements according to the applicable legislation, and the External Providers' security and legal requirements. In case the established limits are reached or the compliance request is submitted to You, Your ability to perform further Exchange Transactions may be limited or terminated until You take the requested action.

- 1.11. Particular Transaction limits and minimum Transaction thresholds may vary depending on Your chosen payment method or the particular type of Funds to be exchanged.
- 1.12. We may refuse to initiate and proceed with the Exchange Transaction:
- a. for any AML/CFT or regulatory compliance reason we deem appropriate;
 - b. if the placed Deposit is insufficient to cover the Exchange Transaction amount, our Fees or other applicable commissions;
 - c. if the submitted payment details or digital wallet address are invalid or incorrect;
 - d. if the value of the Exchange Transaction falls beneath the minimum Transaction thresholds established by Trustyfi;
 - e. in other cases when it is not technically possible to initiate and proceed with the Exchange Transaction.
- 1.13. Any Exchange Transactions performed via Your Account shall be done only in Your own name and made only for Your own benefit. Exchange Transactions made in the name or for the benefit of third parties are strictly prohibited. We shall perform Exchange Transactions only between Your Account and another Fiat account and/or digital wallets that are held in Your name or of which You may clearly demonstrate ownership.
- 1.14. The Exchange Transaction is initiated only subject to compliance with other conditions listed in these Terms, and as soon as Your Deposit is in a sufficient amount to cover the Exchange Transaction amount, our Fees and applicable commissions reach Trustyfi. The timeframe for the Exchange Transaction execution varies, as it depends on the External Providers, as well as the Blockchain network.

2. WALLET SERVICE

- 2.1. The Wallet Service allows You to store and manage Your Crypto-assets. The Wallet is accessible through Your Account on the Platform and is available only for registered Users.
- 2.2. The Wallet Service, except for the Exchange Service provided via the Wallet, may be additionally powered by External Providers.
- 2.3. The Transactions performed via Your Wallet may be subject to the Fees charged by Trustyfi or External Providers. The Exchange Transactions You perform with Crypto-assets stored on Your Wallet or to Deposit or Withdraw Crypto-assets to or from Your Wallet are subject to the corresponding Trustyfi Exchange Fees. The amount of Fees applicable to Your Wallet Transaction and charged by Trustyfi, as well as their rates, will be communicated to You before You approve the Transaction. The Fees may vary based on the Wallet Transaction type and amount, chosen payment method, and other circumstances.
- 2.4. The Crypto-assets stored in the Wallet bear no interest.
- 2.5. For Your convenience only, the approximate value and the approximate total balance of Your Funds stored within Your Wallet in Fiat equivalent may be

displayed in the Wallet interface. You shall not treat such an approximate representation of the value of Your Funds as either an official statement or as any obligation we may have towards You, and shall not rely on it in any decision-making, as the displayed value is only a rough estimate of Your Funds and is not applicable for the purposes of Service provision. You may determine the accurate Wallet balance by having a look at the initial value of each type of Funds stored therein. We assume no liability for the value fluctuations of Crypto-assets stored in Your Wallet.

- 2.6. To access the Wallet Service and to perform a Transaction via the Wallet, You may be required to pass an identity verification procedure and provide information and documents we may request. This is required under the applicable AML/CFT laws and regulations.
- 2.7. You may perform the following types of Transactions via the Wallet:
 - a. Deposit Crypto-assets to Your Wallet by (i) depositing them from Your external digital wallet to the relevant address of Your Wallet, free of charge, and/or (ii) exchanging Fiat funds to Crypto-assets under the conditions of the Exchange Service;
 - b. Withdraw (i) Crypto-assets to Your external digital wallet, or (ii) Fiat received as a result of Exchange to Your external payment account, subject to the applicability of withdrawal Fees;
 - c. exchange Funds under the conditions of the Exchange Service.
- 2.8. Any initiated Transaction cannot be altered, retracted, or cancelled. It is Your responsibility to check all Transaction details prior to its initiation and ensure that You have indicated the correct Transaction details, external digital wallet address, and Blockchain network.
- 2.9. The functionality of the Wallet may change from time to time, and performing some types of Transactions or operations via the Wallet may not be available at all times and in all markets and regions.
- 2.10. We may refuse to initiate or proceed with any Wallet Transaction:
 - a. for any AML/CFT or regulatory compliance reason we deem appropriate;
 - b. if performing the Transaction will result in the Wallet having a negative balance;
 - c. if the submitted Transaction details are invalid or incorrect;
 - d. if the value of the Transaction falls beneath the minimum Transaction thresholds established by Trustyfi or External Providers;
 - e. in other cases, when it is not technically possible to initiate or proceed with the Transaction.
- 2.11. Trustyfi may hold Your Crypto-assets with External Providers, acting as custodians. In certain situations permitted under applicable laws, by holding Your Crypto-assets with External Providers, we may register Your Account within such External Providers in our name and for Your benefit. However, Your Crypto-assets stored within such External Providers may not be segregated

from Trustyfi's assets and may not be protected. Any Deposit in Crypto-assets placed by You is not covered by any deposit guarantee scheme.

- 2.12. Upon setting up the Wallet, Trustyfi automatically generates a private key and public key pair for cryptographic security. The public key is shareable for the purposes of performing Transactions. The private key corresponds to Your Wallet address and authorises the movement of Crypto-assets to and from Your Wallet. The private keys for Your Wallet addresses are not disclosed to any third party.
- 2.13. Trustyfi will make reasonable efforts to notify You if any particular type of Crypto-assets stored in Your Wallet is no longer supported. Once we discontinue to support a particular type of Crypto-assets, You will not be able to use it to perform Transactions and will only be able to withdraw them. If not supported Crypto-assets remain in Your Wallet beyond the specified time notified to You, we may convert such Crypto-assets into a different type of Crypto-asset or Fiat upon prior notification or automatically withdraw it to an external digital wallet or Fiat account of which You demonstrated ownership.
- 2.14. In case of suspension, limitation or termination of Your Wallet, the provision of the Services or these Terms, any pending Transactions to or from Your Wallet will be reversed or declined.
- 2.15. You acknowledge and agree that if Your Wallet or Account is terminated for any reason and You have not withdrawn the existing Crypto-assets within six months from the Wallet or Account termination, we reserve the right to apply a holding fee of 0.1% per day on the remaining balance.

- 3.10. Fees associated with Transaction processing may affect the final amount the merchant charges You in connection with the Transaction.
- 3.11. Trustyfi is not a party to any arrangement between You and the Merchant. The beneficiary of the Payment Transaction initiated via the Trustyfi Payments gateway, as well as the entity responsible for fulfilling obligations in relation to Your Payment Transaction, is the Merchant.
- 3.12. We do not make any representations or warranties that an initiated Payment Transaction will be successfully performed, as such performance is subject to the operation of the Blockchain, External Providers, and other third parties and circumstances, over which we do not have control.
- 3.13. Any inquiries, communications and complaints in connection with the merchant's goods and services, Payments Transactions, as well as any requests provided in connection with Trustyfi Payments Transactions, including refunds, will not be accepted by Trustyfi must be communicated directly to the merchant.

Please note that the refunded amount will be calculated by the merchant.
- 3.15. We reserve the right to unilaterally suspend, decline, and/or initiate a refund of Your Payment Transaction due to regulatory requirements, third-party-imposed limitations, our risk assessment, or any other reason we deem appropriate.
